(Use this form to file a local law with the Secretary of State.)

Text of law should be given as amended. Do not include matter being eliminated and do not use italics or underlining to indicate new matter.

~~COUNTY~~  
~~CITY~~  
Town  
~~VILLAGE~~

of ..... Lumberland .....

Local Law No. ..... 2 ..... of the year 2001 .....

A local law to Establish a Street Numbering & Naming System  
(Insert Title)

Be it enacted by the ..... Town Board ..... of the  
(Name of Legislative Body)

~~COUNTY~~  
~~CITY~~  
Town  
~~VILLAGE~~

of ..... Lumberland ..... as follows:

Section 1. Official System Established

There is hereby established an official system of street names and numbers in the Town of Lumberland, New York, as shown on a map entitled "Enhanced 9-1-1 Atlas, Lumberland, No. 810, Assessment Series" prepared by microDATA of St Johnsbury, Vermont in 1998.

Section 2. Naming of Streets

(a) No new street shall be accepted by the Town/Village until such street shall be identified and designated by name. If new streets are extensions of existing streets, the names of such streets shall be attached to such extensions. If such new street is not an extension of an existing street, then the name by which the new street is designated shall not be identical to, nor bear any similarity to, nor conflict with the name of any existing street as shown on the map, or on any amendment or modification thereof.

(b) Names for new streets and streets that are unnamed at the time of the adoption of this local law shall be assigned. Changes of existing street names must be approved by the code enforcement officer.

(c) The code enforcement officer may change the name of any street when necessary to avoid confusion.

(d) The code enforcement officer shall cooperate with the code enforcement officers of adjoining towns to ensure that every street within a United States Postal Service ZIP Code area has a unique name.

Section 3. Street Numbers

- (a) New street numbers shall be assigned by the code enforcement officer in accordance with the following conventions:
  - (i) Numbering shall begin at the eastern or southern end of a street, except that where a street dead-ends, connects with a larger traffic artery, or clearly begins where emergency responders are most likely to enter the street, the numbering may begin at a point most likely to facilitate responses to emergencies.
  - (ii) Every fifty feet from the beginning of a street, a new address number shall be assigned on each side of the street, with odd numbers on the left and even numbers on the right.
- (b) The code enforcement officer may assign new numbers where necessary to avoid duplication or confusion.

Section 4.

Numbering of Buildings

- (a) The principal building on every parcel of land shall bear the number assigned to the street frontage on which the entrance is located. In case a principal building is occupied by more than one business or family dwelling, the entrance to each separate use of such principal building shall bear a separate number.
- (b) Numerals indicating the official numbers for each principal building or each separate entrance shall be posted in a manner so as to be visible from the street on which the property is located. Whenever any building is situated more than fifty feet from the street line, the official number shall be affixed to a gate, fence, tree, post, or other appropriate place so as to be easily visible from the street line, and so as to show clearly, if not otherwise evident, which is the driveway for the property. The numbers shall be not less than three inches, nor more than six inches, in height and shall be made of a durable material clearly visible during both daytime and nighttime hours.
- (c) The owner of every building existing at the time of the adoption of this local law and already having a street number shall place official numerals on such building within thirty days after such adoption. The owner of every new or previously unnumbered building and of every building to which a new number has been assigned shall place official numerals on such building within thirty days after being notified of the assignment of a number. No certificate of occupancy shall be issued for any new building until the owner has complied with this provision.

Section 5.

Records

- (a) The code enforcement officer shall keep a record of all names and numbers assigned pursuant to this local law.
- (b) Upon assigning a new or changed name or number, the code enforcement officer shall immediately inform the Director of the Sullivan County Emergency Control Center of the assignment.

Section 5.

Enforcement

- (a) The code enforcement officer shall enforce this local law. Presentment in the local Justice Court shall be made by the Town/Village Attorney.
- (b) Any person who violates this local law shall be guilty of a violation and subject to punishment as provided in the Penal Law of the State of New York.

Section 6. Separability

If any portion of this local law is found for any reason to be invalid by a court of competent jurisdiction, such decision shall not affect the validity of the remaining portions.

Section 7. Effective Date

This local law shall become effective upon filing in the office of the Secretary of State.

MAY 9, 2001

(Complete the certification in the paragraph that applies to the filing of this local law and strike out that which is not applicable.)

1. (Final adoption by local legislative body only.)

I hereby certify that the local law annexed hereto, designated as local law No. 2 of 2001 was duly passed by the ~~(County)(City)(Town)(Village)~~ of Lumberland ~~(Name of Legislative Body)~~ Town Board on \_\_\_\_\_ 2001, in accordance with the applicable provisions of law.

2. (Passage by local legislative body with approval, no disapproval or repassage after disapproval by the Elective Chief Executive Officer\*.)

I hereby certify that the local law annexed hereto, designated as local law No. \_\_\_\_\_ of 20\_\_\_\_ was duly passed by the ~~(County)(City)(Town)(Village)~~ of \_\_\_\_\_ on \_\_\_\_\_ 20\_\_\_\_, and was (approved)(not disapproved)(repassed after disapproval) by the ~~(Elective Chief Executive Officer\*)~~ \_\_\_\_\_ and was deemed duly adopted on \_\_\_\_\_ in accordance with the applicable provisions of law.

3. (Final adoption by referendum.)

ADD: 3.3.12 as follows:

The Planning Board shall be authorized to enact regarding notice to adjoining landowner and amend the same from time to time by resolution.

ADD SECTION 5.9.4:

These regulations shall apply in all instances where animals are kept for any period of time regardless whether or not the same is in conjunction with a commercial enterprise.

1. The following is the maximum number of animals which can be kept on a single lot::

NUMBER OF ANIMALS	MINIMUM LOT AREA
Up to 2 cats or dogs total	No minimum
3-4 cats or dogs total	2 acres
5+ cats or dogs total	1/2 acre per animal

2. Any facility where more than four (4) dogs over three (3) months of age are kept (indoors or outdoor), boarded or trained shall also be considered a kennel and be subject to special use permitting procedures where permitted. All existing kennels shall have obtained a special use permit within six (6) months of the date of this Law's enactment unless the same shall possess a valid zoning permit previously issued by the Town of Lumberland.

3. The Planning Board shall be authorized to impose additional buffering, setback, noise control, sanitation and other conditions as may be necessary to protect the character of the neighborhood and address health and safety concerns.

DEFINITION: (Add)

KENNEL: Any place at which there are kept five or more dogs over the age of three months and/or more pups than from a single litter, under the age of

three months, for care, boarding, breeding or other purpose, whether or not a fee is charged. All other words and phrases used in this amendment shall for the purpose of this amendment have the meanings ascribed to them by Section 108 of the Agriculture and Markets Law.

5.9.5 KENNEL REQUIREMENTS:

1. Must conform to all regulatory requirements of New York State Agriculture and Markets Law.

2. Setbacks: All buildings and structures housing animals and all pens, runs and open areas where dogs are allowed to be shall be located no closer than 300 feet from any lot or street line and shall also be located no closer than 500 feet from any residential dwelling that is located off the site.

3. Noise and quiet hours: All dogs which present a potential nuisance by barking or other noises shall be contained within buildings or other areas between the hours of 8:00 p.m. and 8:00 a.m. , local time, each day, so that such noise is not discernible beyond 500 feet of the building, or the nearest off-site residential structure.

4. Kennels charging a fee must obtain a Special Use Permit from the Planning Board in addition to the other requirements of this section.

5. Sanitary and veterinary review: In all instances, all dogs shall be adequately housed, fed, controlled, fenced, inoculated, and otherwise maintained in a sanitary and safe manner so as not to create a nuisance, health or safety hazard to nearby properties , property owners or inhabitants of the neighborhood or the dogs or other domestic animals.

6. Kennel License: A license for one year for a kennel may be obtained from the Town Clerk after the Dog Control Officer has inspected the premises and found that it meets the conditions of this local law, including the requirement of an approved Special Use Permit for those kennels charging a fee. A fee of \$50.00 per year per kennel is imposed by the Town and each license is renewable on its anniversary date for the same fee. Renewal will occur as long as there are no unresolved violations of the local law during the previous year. Fees will remain the same until said fees are changed by resolution of the Town Board.

#### **5.9.6 ADMINISTRATION AND ENFORCEMENT:**

##### ADMINISTRATION:

This local shall be enforced by the Code Enforcement Officer, and the Planning Board or any other persons duly so appointed by resolution of the Town Board.

##### VIOLATIONS AND PENALTIES:

In addition to enforcement of provisions authorizing seizure of unlicensed dogs, pursuant to Section 114 of the Agriculture and Markets Law of New York State:

- (a) Any person who commits an act in violations of the provisions of this local law shall be liable for any such violation and subject to the penalties set forth below.
- (b) Any person convicted of a violation of this local law shall be subject to a fine not exceeding Five Hundred Dollars (\$500.00) per violation. Multiple convictions shall each be subject to separate fines. Each day a violation exists shall be deemed to be a separate violation and subject to a fine, not to exceed Five Hundred Dollars (\$500.00) per day.

Local Law No. 4 of the year 2001

A local law IMPOSING A SIX MONTH MORATORIUM ON THE GRANTING OF SPECIAL USE PERMITS FOR CAMPGROUNDS  
(Insert Title)

Be it enacted by the TOWN BOARD  
(Name of Legislative Body) of the

~~County~~

~~City~~

Town

~~Village~~

of

LUMBERLAND

as follows:

Section 1. Title

This Local Law shall be referred to as the "A Local Law Imposing a Six Month Moratorium on the Granting of Special Use Permits for Campgrounds."

Section 2. Purpose and Intent

Pursuant to the statutory powers vested in the Town of Lumberland to regulate and control land use and to protect the health, safety and welfare of its residents, the Town Board of the Town of Lumberland hereby declares a six month moratorium on the granting of special use permits for campgrounds in rural residential districts, all as set forth in the Town of Lumberland Zoning Law.

The Town of Lumberland has recently received or anticipates receiving applications for one or more campgrounds in a rural residential district. The Town Board is concerned that the current Zoning Law does not provide any criteria for the review and approval/disapproval of any such special use permit application. The Town Board is also concerned that the granting of a special use permit for a campground in a rural residential district may cause the devaluing of single family residences located nearby.

The Town Board of the Town of Lumberland desires to address, in a careful manner, the issue of criteria for granting a special use permit for a campground in a rural residential district, as well as the broader issue of whether this use is appropriate, at all, in a rural residential district.

Section 3. Scope of Controls

A. During the effective period of this Local Law:

1. The Planning Board of the Town of Lumberland shall not grant any special use permit for the establishment of a campground in a rural residential district.

2. Further, the Town of Lumberland Planning Board shall not consider any new or existing application for a special use permit for a campground in a rural residential district.

3. The Code Enforcement Officer of the Town of Lumberland shall not issue any permit, temporary or permanent, for or in connection with the operation of any campground in a rural residential district (unless a special use permit for a campground in a rural residential district was properly granted prior to the effective date of this Local Law).

B. The Town Board of the Town of Lumberland reserves the right to direct the Code Enforcement Officer to revoke or rescind any permits issued in violation of this Local Law.

#### Section 4. No Consideration of New Application

No application for the granting of a special use permit for a campground in a rural residential district shall be considered by any board, officer or agency of the Town of Lumberland while the moratorium imposed by this Local Law is in effect.

#### Section 5. Term

The moratorium imposed by this Local Law shall be in effect for a period of six months from the effective date of this Local Law.

#### Section 6. Penalties

Any person, firm or corporation that shall attempt to operate a campground in a rural residential district during the period of this moratorium shall be subject to:

A. Such penalties as may otherwise be provided by applicable Local Laws, ordinances, rules, regulations of the Town of Lumberland for violations; and

B. Injunctive relief in favor of the Town of Lumberland to cease any and all such actions which conflict with this Local Law and, if necessary, to remove any construction that may have taken place in violation of this Local Law.

#### Section 7. Validity

The invalidity of any provision of this Local Law shall not affect the validity of any other provision of this Local Law that can be given effect without such invalid provision.

#### Section 8. Hardship

A. Should any owner of property affected by this Local Law suffer an unnecessary hardship in the way of carrying out the strict letter of this Local Law, then the owner of said property may apply to the Town Board of the Town of Lumberland in writing for a variation from strict compliance with this Local Law upon

submission of proof of such unnecessary hardship. For the purposes of this Local Law, unnecessary hardship shall not be the mere delay in being permitted to make an application or waiting for a decision on the application for a variance, special permit, site plan, subdivision, or other permit during the period of the moratorium imposed by this Local Law.

B. Procedure. Upon submission of a written application to the Town Clerk by the property owner seeking a variation of this Local Law, the Town Board shall, within thirty (30) days of receipt of said application, schedule a Public Hearing on said application upon five (5) days' written notice in the official newspaper of the Town of Lumberland. At said Public Hearing, the property owner and any other parties wishing to present evidence with regard to the application shall have an opportunity to be heard, and the Town Board shall, within fifteen (15) days of the close of said Public Hearing, render its decision either granting or denying the application for a variation from the strict requirements of this Local Law. If the Town Board determines that a property owner will suffer an unnecessary hardship if this Local Law is strictly applied to a particular property, then the Town Board shall vary the application to this Local Law to the minimum extent necessary to provide the property owner relief from strict compliance with this Local Law.

#### Section 9. Effective Date

This Local Law shall take effect immediately when it is filed in the Office of the New York State Secretary of State in accordance with Section 27 of the Municipal Home Rule Law.

Local Law No. 8 of the year 2001

A local law Extending the Six Month Moratorium on the Granting of Special Use  
(Insert Title) Permits for Campgrounds Previously Enacted

Be it enacted by the Town Board of the

~~County~~

TOWN OF LUMBERLAND  
LOCAL LAW # 8

LOCAL LAW EXTENDING THE SIX MONTH MORATORIUM ON THE GRANTING  
OF SPECIAL USE PERMITS FOR CAMPGROUNDS PREVIOUSLY ENACTED

**Section 1. Title**

This Local Law shall be referred to as "A Local Law Extending the Six Month Moratorium on the Granting of Special Use Permits for Campgrounds Previously Enacted."

**Section 2. Purpose and Intent**

Pursuant to the statutory powers vested in the Town of Lumberland to regulate and control land use and to protect the health, safety and welfare of its residents, the Town Board of the Town of Lumberland previously declared a six month moratorium on the granting of special use permits for campgrounds in rural residential districts as was provided in the Town of Lumberland Zoning Law.

The six month moratorium was previously passed by the Town Board at a meeting held on May 29, 2001. It was subsequently forwarded to the Office of the New York State Secretary of State on June 5, 2001. The Local Law was received by the New York State Secretary of State on the 21st day of June, 2001 for filing with that office. The six month moratorium is, hence, scheduled to end on the 21st day of December, 2001.

The Town Board is presently in the process of amending its Zoning Laws to address, in a careful manner, the issue of criteria for granting a special use permit for a campground in a rural residential district, as well as the broader issue of whether this use is appropriate, at all, in a rural residential district, or any other district within the Town.

The Town Board verily believes that this process will be concluded within the next few months, but requires additional time to complete its work. The Town Board verily believes that this work will be completed within the next three months. Hence, the purpose of this Local Law is to extend the moratorium previously imposed on the granting of special use permits for campgrounds in rural residential districts for a period of three months.

**Section 3. Scope of Controls**

A. During the effective period of this Local Law:

1. The Planning Board of the Town of Lumberland shall not grant any special use permit for the establishment of a campground in a rural residential district.

2. Further, the Town of Lumberland Planning Board shall not consider any new or existing application for a special use permit for a campground in a rural residential district.

3. The Code Enforcement Officer of the Town of Lumberland shall not issue any permit, temporary or permanent, for or in connection with the operation of any campground in a rural residential district (unless a special use permit for a campground in a rural residential district was properly granted prior to the effective date of this Local Law).

B. The Town Board of the Town of Lumberland reserves the right to direct the Code Enforcement Officer to revoke or rescind any permits issued in violation of this Local Law.

#### **Section 4. No Consideration of New Application**

No application for the granting of a special use permit for campground in a rural residential district shall be considered by any board, officer or agency of the Town of Lumberland while the moratorium imposed by this Local Law is in effect.

#### **Section 5. Term**

The moratorium imposed by this local Law shall be in effect for a period of three months from the 21 day of December, 2001, the date on which the previously enacted moratorium is presently scheduled to end.

#### **Section 6. Penalties**

Any person, firm or corporation that shall attempt to operate a campground in a rural residential district during the period of this moratorium shall be subject to:

A. Such penalties as may otherwise be provided by applicable Locals Laws, ordinances, rules, regulations of the Town of Lumberland violations; and

B. Injunctive relief in favor of the Town of Lumberland to cease any and all such actions which conflict with this Local Law and, if necessary, to remove any construction that may have taken place in violation of this Local Law.

#### **Section 7. Validity**

The invalidity of any provision of this Local Law shall not affect the validity of any other provision of this Local Law that can be given effect without such invalid provision.

#### **Section 8. Hardship**

A. Should any owner of property affected by this Local Law suffer an unnecessary hardship in the way of carrying out the strict letter of this Local Law, then the owner of said property may apply to the Town Board of the Town of Lumberland in writing for a variation from strict compliance with this Local Law upon submission of proof of such unnecessary hardship. For the

purposes of this Local Law, unnecessary hardship shall not be by the mere delay in being permitted to make an application or waiting for a decision on the application for a variance, special permit, site plan, subdivision, or other permit during the period of the moratorium imposed by this Local Law.

B. Procedure. Upon submission of a written application to the Town Clerk by the property owner seeking a variation of this Local Law, the Town Board shall, within thirty (30) days of receipt of said application, schedule a Public Hearing on said application upon five (5) days' written notice in the official news paper of the Town of Lumberland. At said Public Hearing, the property owner and any other parties wishing to present evidence with regard to the application shall have an opportunity to be heard, and the Town Board shall, within fifteen (15) days of the close of said Public Hearing, render its decision either granting or denying the application for a variation from the strict requirements of this Local Law. If the Town Board determines that a property owner will suffer an unnecessary hardship if this Local Law is strictly applied to a particular property, then the Town Board shall vary the application to this Local Law to the minimum extent necessary to provide the property owner relief from strict compliance with this Local Law.

#### **Section 9. Effective Date**

This Local Law shall take effect immediately when it is filed in the Office of the New York State Secretary of State in accordance with Section 27 of the Municipal Home Rule Law.

#### **Section 10. Further Extension of Moratorium**

In the event that the Town Board finds it necessary and appropriate to continue this moratorium for an additional three months beyond the 21st day of March, 2002, the date on which this moratorium extension will terminate, in order to complete the work contemplated by the original Local Law establishing the moratorium and this extension thereof, it may, by resolution, so extend this moratorium for a further period of three additional months, through and including the 21st day of March, 2002.

Local Law No. 9 of the year 2001

A local law for FLOOD DAMAGE PREVENTION  
as authorized by the New York State Constitution, Article IX, Section 2,  
and Environmental Conservation law, Article 36.

Be it enacted by the Town Board of the  
(Name of Legislative Body)

Town  
~~City~~ of Lumberland, Sullivan County,  
~~Village~~

N.Y. as follows:

SECTION 1.0  
STATUTORY AUTHORIZATION AND PURPOSE

1.1 FINDINGS

The Town Board of the Town of Lumberland finds that the potential and/or actual damages from flooding and erosion may be a problem to the residents of the Town of Lumberland and that such damages may include: destruction or loss of private and public housing, damage to public facilities, both publicly and privately owned, and injury to and loss of human life. In order to minimize the threat of such damages and to achieve the purposes and objectives hereinafter set forth, this local law is adopted.

1.2 STATEMENT OF PURPOSE

It is the purpose of this local law to promote the public health, safety, and general welfare, and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

- (1) regulate uses which are dangerous to health, safety and property due to water or erosion hazards, or which result in damaging increases in erosion or in flood heights or velocities;

- (2) require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
- (3) control the alteration of natural floodplains, stream channels, and natural protective barriers which are involved in the accommodation of flood waters;
- (4) control filling, grading, dredging and other development which may increase erosion or flood damages;
- (5) regulate the construction of flood barriers which will unnaturally divert flood waters or which may increase flood hazards to other lands, and;
- (6) qualify and maintain for participation in the National Flood Insurance Program.

### 1.3 OBJECTIVES

The objectives of this local law are:

- (1) to protect human life and health;
- (2) to minimize expenditure of public money for costly flood control projects;
- (3) to minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
- (4) to minimize prolonged business interruptions;
- (5) to minimize damage to public facilities and utilities such as water and gas mains, electric, telephone, sewer lines, streets and bridges located in areas of special flood hazard;
- (6) to help maintain a stable tax base by providing for the sound use and development of areas of special flood hazard so as to minimize future flood blight areas;
- (7) to provide that developers are notified that property is in an area of special flood hazard; and,
- (8) to ensure that those who occupy the areas of special flood hazard assume responsibility for their actions.

**SECTION 2.0  
DEFINITIONS**

Unless specifically defined below, words or phrases used in this local law shall be interpreted so as to give them the meaning they have in common usage and to give this local law its most reasonable application.

"**Appeal**" means a request for a review of the Local Administrator's interpretation of any provision of this Local Law or a request for a variance.

"**Area of shallow flooding**" means a designated AO, AH or VO Zone on a community's Flood Insurance Rate Map (FIRM) with a one percent or greater annual chance of flooding to an average annual depth of one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

"**Area of special flood hazard**" is the land in the floodplain within a community subject to a one percent or greater chance of flooding in any given year. This area may be designated as Zone A, AE, AH, AO, A1-A30, A99, V, VO, VE, or V1-V30. It is also commonly referred to as the base floodplain or 100-year floodplain.

"**Base flood**" means the flood having a one percent chance of being equalled or exceeded in any given year.

"**Basement**" means that portion of a building having its floor subgrade (below ground level) on all sides.

"**Building**" see "Structure"

"**Cellar**" has the same meaning as "Basement".

"**Crawl Space**" means an enclosed area beneath the lowest elevated floor, eighteen inches or more in height, which is used to service the underside of the lowest elevated floor. The elevation of the floor of this enclosed area, which may be of soil, gravel, concrete or other material, must be equal to or above the lowest adjacent exterior grade. The enclosed crawl space area shall be properly vented to allow for the equalization of hydrostatic forces which would be experienced during periods of flooding.

"**Development**" means any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, paving, excavation or drilling operations or storage of equipment or materials.

"**Elevated building**" means a non-basement building (i) built, in the case of a building in Zones A1-A30, AE, A, A99, AO, AH, B, C, X, or D, to have the top of the elevated floor, or in the case of a building in Zones V1-30, VE, or V, to have the bottom of the lowest horizontal structure member of the elevated floor elevated above the ground level by means of pilings, columns (posts and piers), or shear walls parallel to the flow of the water and (ii) adequately anchored so as not to impair the structural integrity of the building during a flood of up to the magnitude of the base flood. In

the case of Zones A1-A30, AE, A, A99, AO, AH, B, C, X, or D, "elevated building" also includes a building elevated by means of fill or solid foundation perimeter walls with openings sufficient to facilitate the unimpeded movement of flood waters. In the case of Zones V1-V30, VE, or V, "elevated building" also includes a building otherwise meeting the definition of "elevated building", even though the lower area is enclosed by means of breakaway walls that meet the federal standards.

**"Existing manufactured home park or subdivision"** means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is complete before the effective date of the floodplain management regulations adopted by the community.

**"Expansion to an existing manufactured home park or subdivision"** means the preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

**"Federal Emergency Management Agency"** means the Federal agency that administers the National Flood Insurance Program.

**"Flood" or "Flooding"** means a general and temporary condition of partial or complete inundation of normally dry land areas from:

- (1) the overflow of inland or tidal waters;
- (2) the unusual and rapid accumulation or runoff of surface waters from any source.

**"Flood" or "flooding"** also means the collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as a flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in flooding as defined in (1) above.

**"Flood Boundary and Floodway Map (FBFM)"** means an official map of the community published by the Federal Emergency Management Agency as part of a riverine community's Flood Insurance Study. The FBFM delineates a Regulatory Floodway along water courses studied in detail in the Flood Insurance Study.

**"Flood Elevation Study"** means an examination, evaluation and determination of the flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of flood-related erosion hazards.

**"Flood Hazard Boundary Map (FHBM)"** means an official map of a community, issued by the Federal Emergency Management Agency, where the boundaries of

the areas of special flood hazard have been designated as Zone A but no flood elevations are provided.

"Flood Insurance Rate Map (FIRM)" means an official map of a community, on which the Federal Emergency Management Agency has delineated both the areas of special flood hazard and the risk premium zones applicable to the community.

"Flood Insurance Study" see "flood elevation study".

"Floodplain" or "Flood-prone area" means any land area susceptible to being inundated by water from any source (see definition of "Flooding").

"Floodproofing" means any combination of structural and non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.

"Floodway" - has the same meaning as "Regulatory Floodway".

"Functionally dependent use" means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water, such as a docking or port facility necessary for the loading and unloading of cargo or passengers, shipbuilding, and ship repair facilities. The term does not include long-term storage, manufacturing, sales, or service facilities.

"Highest adjacent grade" means the highest natural elevation of the ground surface, prior to construction, next to the proposed walls of a structure.

"Historic structure" means any structure that is:

- (1) listed individually in the National Register of Historic Places (a listing maintained by the Department of the Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;
- (2) certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
- (3) individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or
- (4) individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:
  - (i) by an approved state program as determined by the Secretary of the Interior or
  - (ii) directly by the Secretary of the Interior in states without approved programs.

"Local Administrator" is the person appointed by the community to administer and implement this local law by granting or denying development permits in accordance with its provisions. This person is often the Code Enforcement Officer, Building Inspector or employee of an engineering department.

"Lowest floor" means lowest floor of the lowest enclosed area (including basement or cellar). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access, or storage in an area other than a basement area is not considered a building's lowest floor; provided, that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of this Local Law.

"Manufactured home" means a structure, transportable in one or more sections, which is built on a permanent chassis and designed to be used with or without a permanent foundation when connected to the required utilities. The term does not include a "Recreational vehicle"

"Manufactured home park or subdivision" means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

"Mean sea level" means, for purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929 or other datum, to which base flood elevations shown on a community's Flood Insurance Rate Map are referenced.

"Mobile home" - has the same meaning as "Manufactured home".

"National Geodetic Vertical Datum (NGVD)" as corrected in 1929 is a vertical control used as a reference for establishing varying elevations within the flood plain.

"New construction" means structures for which the "start of construction" commenced on or after the effective date of a floodplain management regulation adopted by the community and includes any subsequent improvements to such structure.

"New manufactured home park or subdivision" means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of floodplain management regulations adopted by a community.

"One hundred year flood" or "100-year flood" has the same meaning as "Base Flood".

"Principally above ground" means that at least 51 percent of the actual cash value of the structure, excluding land value, is above ground.

"Recreational vehicle" means a vehicle which is:

- (1) built on a single chassis;

- (2) 400 square feet or less when measured at the largest horizontal projections;
- (3) designed to be self-propelled or permanently towable by a light duty truck; and
- (4) not designed primarily for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

"Regulatory Floodway" means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height as determined by the Federal Emergency Management Agency in a Flood Insurance Study or by other agencies as provided in Section 4.4-2 of this Law.

"Start of construction" includes substantial improvement and means the initiation, excluding planning and design, of any phase of a project, physical alteration of the property, and shall include land preparation, such as clearing, grading, and filling; installation of streets and/or walkways; excavation for a basement, footings, piers, or foundations or the erection of temporary forms. It also includes the placement and/or installation on the property of accessory buildings (garages, sheds), storage trailers, and building materials. For manufactured homes the "actual start" means affixing of the manufactured home to its permanent site.

"Structure" means a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

"Substantial damage" means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

"Substantial improvement" means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the "start of construction" of the improvement. The term includes structures which have incurred "substantial damage", regardless of the actual repair work performed. The term does not, however, include either:

- (1) any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions; or
- (2) any alteration of a "Historic structure", provided that the alteration will not preclude the structure's continued designation as a "Historic structure".

"Variance" means a grant of relief from the requirements of this local law which permits construction or use in a manner that would otherwise be prohibited by this local law.

### 3.5 PENALTIES FOR NON-COMPLIANCE

No structure in an area of special flood hazard shall hereafter be constructed, located, extended, converted, or altered and no land shall be excavated or filled without full compliance with the terms of this local law and any other applicable regulations. Any infraction of the provisions of this local law by failure to comply with any of its requirements, including infractions of conditions and safeguards established in connection with conditions of the permit, shall constitute a violation. Any person who violates this local law or fails to comply with any of its requirements shall, upon conviction thereof, be fined no more than \$250 or imprisoned for not more than 15 days or both. Each day of noncompliance shall be considered a separate offense. Nothing herein contained shall prevent the Town of Lumberland from taking such other lawful action as necessary to prevent or remedy an infraction. Any structure found not compliant with the requirements of this local law for which the developer and/or owner has not applied for and received an approved variance under Section 6.0 will be declared non-compliant and notification sent to the Federal Emergency Management Agency.

### 3.6 WARNING AND DISCLAIMER OF LIABILITY

The degree of flood protection required by this local law is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by man-made or natural causes. This local law does not imply that land outside the area of special flood hazards or uses permitted within such areas will be free from flooding or flood damages. This local law shall not create liability on the part of the Town of Lumberland, any officer or employee thereof, or the Federal Emergency Management Agency, for any flood damages that result from reliance on this local law or any administrative decision lawfully made thereunder.

## SECTION 4.0 ADMINISTRATION

### 4.1 DESIGNATION OF THE LOCAL ADMINISTRATOR

The Code Enforcement Officer is hereby appointed Local Administrator to administer and implement this local law by granting or denying floodplain development permits in accordance with its provisions.

### 4.2 THE FLOODPLAIN DEVELOPMENT PERMIT

#### 4.2-1 PURPOSE

A floodplain development permit is hereby established for all construction and other development to be undertaken in areas of special flood hazard in this community for the purpose of protecting its citizens from increased flood hazards and insuring that new development is constructed in a manner that minimizes its exposure to flooding. It shall be unlawful to undertake any development in an area of special flood hazard, as shown on the Flood Insurance Rate Map enumerated in Section

3.2, without a valid floodplain development permit. Application for a permit shall be made on forms furnished by the Local Administrator and may include, but not be limited to: plans, in duplicate, drawn to scale and showing: the nature, location, dimensions, and elevations of the area in question; existing or proposed structures, fill, storage of materials, drainage facilities, and the location of the foregoing.

#### 4.2-2 FEES

- (1) All applications for a floodplain development permit shall be accompanied by an application fee of \$ 25.00. In addition, the applicant shall be responsible for reimbursing the Town of Lumberland for any additional costs necessary for review, inspection and approval of this project. The Local Administrator may require a deposit of no more than \$500.00 to cover these additional costs.

#### 4.3 APPLICATION FOR A PERMIT

The applicant shall provide the following information as appropriate. Additional information may be required on the permit application form.

- (1) The proposed elevation, in relation to mean sea level, of the lowest floor (including basement or cellar) of any new or substantially improved structure to be located in Zones A1-A30, AE or AH, or Zone A if base flood elevation data are available. Upon completion of the lowest floor, the permittee shall submit to the Local Administrator the as-built elevation, certified by a licensed professional engineer or surveyor.
- (2) The proposed elevation, in relation to mean sea level, to which any new or substantially improved non-residential structure will be floodproofed. Upon completion of the floodproofed portion of the structure, the permittee shall submit to the Local Administrator the as-built floodproofed elevation, certified by a professional engineer or surveyor.
- (3) A certificate from a licensed professional engineer or architect that any utility floodproofing will meet the criteria in Section 5.2-3, UTILITIES.
- (4) A certificate from a licensed professional engineer or architect that any non-residential floodproofed structure will meet the floodproofing criteria in Section 5.4, NON-RESIDENTIAL STRUCTURES.
- (5) A description of the extent to which any watercourse will be altered or relocated as a result of proposed development. Computations by a licensed professional engineer must be submitted that demonstrate that the altered or relocated segment will provide equal or greater conveyance than the original stream segment. The applicant must submit any maps, computations or other material required by

the Federal Emergency Management Agency (FEMA) to revise the documents enumerated in Section 3.2, when notified by the Local Administrator, and must pay any fees or other costs assessed by FEMA for this purpose. The applicant must also provide assurances that the conveyance capacity of the altered or relocated stream segment will be maintained.

- (6) A technical analysis, by a licensed professional engineer, if required by the Local Administrator, which shows whether proposed development to be located in an area of special flood hazard may result in physical damage to any other property.
- (7) In Zone A, when no base flood elevation data are available from other sources, base flood elevation data shall be provided by the permit applicant for subdivision proposals and other proposed developments (including proposals for manufactured home and recreational vehicle parks and subdivisions) that are greater than either 50 lots or 5 acres.

#### 4.4 DUTIES AND RESPONSIBILITIES OF THE LOCAL ADMINISTRATOR

Duties of the Local Administrator shall include, but not be limited to the following.

##### 4.4-1 PERMIT APPLICATION REVIEW

The Local Administrator shall conduct the following permit application review before issuing a floodplain development permit:

- (1) Review all applications for completeness, particularly with the requirements of subsection 4.3, APPLICATION FOR A PERMIT, and for compliance with the provisions and standards of this law.
- (2) Review subdivision and other proposed new development, including manufactured home parks to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is located in an area of special flood hazard, all new construction and substantial improvements shall meet the applicable standards of Section 5.0, CONSTRUCTION STANDARDS and, in particular, sub-section 5.1-1 SUBDIVISION PROPOSALS.
- (3) Determine whether any proposed development in an area of special flood hazard may result in physical damage to any other property (e.g., stream bank erosion and increased flood velocities). The Local Administrator may require the applicant to submit additional technical analyses and data necessary to complete the determination.

If the proposed development may result in physical damage to any other property or fails to meet the requirements of Section 5.0, CONSTRUCTION STANDARDS, no permit shall be issued. The applicant may revise the application to

include measures that mitigate or eliminate the adverse effects and re-submit the application.

- (4) Determine that all necessary permits have been received from those governmental agencies from which approval is required by State or Federal law.

#### 4.4-2 USE OF OTHER FLOOD DATA

- (1) When the Federal Emergency Management Agency has designated areas of special flood hazard on the community's Flood Insurance Rate map (FIRM) but has neither produced water surface elevation data (these areas are designated Zone A or V on the FIRM) nor identified a floodway, the Local Administrator shall obtain, review and reasonably utilize any base flood elevation and floodway data available from a Federal, State or other source, including data developed pursuant to paragraph 4.3(7), as criteria for requiring that new construction, substantial improvements or other proposed development meet the requirements of this law.
- (2) When base flood elevation data are not available, the Local Administrator may use flood information from any other authoritative source, such as historical data, to establish flood elevations within the areas of special flood hazard, for the purposes of this law.

#### 4.4-3 ALTERATION OF WATERCOURSES

- (1) Notification to adjacent communities and the New York State Department of Environmental Conservation prior to permitting any alteration or relocation of a watercourse, and submittal of evidence of such notification to the Regional Director, Region II, Federal Emergency Management Agency.
- (2) Determine that the permit holder has provided for maintenance within the altered or relocated portion of said watercourse so that the flood carrying capacity is not diminished.

#### 4.4-4 CONSTRUCTION STAGE

- (1) In Zones A1-A30, AE and AH, and also Zone A if base flood elevation data are available, upon placement of the lowest floor or completion of floodproofing of a new or substantially improved structure, obtain from the permit holder a certification of the as-built elevation of the lowest floor or floodproofed elevation, in relation to mean sea level. The certificate shall be prepared by or under the direct supervision of a licensed land surveyor or professional engineer and certified by same. For manufactured homes, the permit holder shall submit the certificate of elevation upon placement of the structure on the site. A certificate of elevation must also be submitted for a recreational vehicle if it remains on a site for 180

consecutive days or longer (unless it is fully licensed and ready for highway use).

- (2) Any further work undertaken prior to submission and approval of the certification shall be at the permit holder's risk. The Local Administrator shall review all data submitted. Deficiencies detected shall be cause to issue a stop work order for the project unless immediately corrected.

#### 4.4-5 INSPECTIONS

The Local Administrator and/or the developer's engineer or architect shall make periodic inspections at appropriate times throughout the period of construction in order to monitor compliance with permit conditions and enable said inspector to certify, if requested, that the development is in compliance with the requirements of the floodplain development permit and/or any variance provisions.

#### 4.4-6 STOP WORK ORDERS

- (1) The Local Administrator shall issue, or cause to be issued, a stop work order for any floodplain development found ongoing without a development permit. Disregard of a stop work order shall subject the violator to the penalties described in Section 3.5 of this local law.
- (2) The Local Administrator shall issue, or cause to be issued, a stop work order for any floodplain development found non-compliant with the provisions of this law and/or the conditions of the development permit. Disregard of a stop work order shall subject the violator to the penalties described in Section 3.5 of this local law.

#### 4.4-7 CERTIFICATE OF COMPLIANCE

- (1) In areas of special flood hazard, as determined by documents enumerated in Section 3.2, it shall be unlawful to occupy or to permit the use or occupancy of any building or premises, or both, or part thereof hereafter created, erected, changed, converted or wholly or partly altered or enlarged in its use or structure until a certificate of compliance has been issued by the Local Administrator stating that the building or land conforms to the requirements of this local law.
- (2) A certificate of compliance shall be issued by the Local Administrator upon satisfactory completion of all development in areas of special flood hazard.
- (3) Issuance of the certificate shall be based upon the inspections conducted as prescribed in Section 4.4-5, INSPECTIONS, and/or any certified elevations, hydraulic data, floodproofing, anchoring requirements or encroachment analyses which may have been required as a condition of the approved permit.

#### 4.4-8 INFORMATION TO BE RETAINED

The Local Administrator shall retain and make available for inspection, copies of the following:

- (1) Floodplain development permits and certificates of compliance;
- (2) Certifications of as-built lowest floor elevations of structures, required pursuant to sub-sections 4.4-4(1) and 4.4-4(2), and whether or not the structures contain a basement;
- (3) Floodproofing certificates required pursuant to sub-section 4.4-4(1), and whether or not the structures contain a basement;
- (4) Variances issued pursuant to Section 6.0, VARIANCE PROCEDURES; and,
- (5) Notices required under sub-section 4.4-3, ALTERATION OF WATERCOURSES.

### SECTION 5.0 CONSTRUCTION STANDARDS

#### 5.1 GENERAL STANDARDS

The following standards apply to new development, including new and substantially improved structures, in the areas of special flood hazard shown on the Flood Insurance Rate Map designated in Section 3.2.

##### 5.1-1 SUBDIVISION PROPOSALS

The following standards apply to all new subdivision proposals and other proposed development in areas of special flood hazard (including proposals for manufactured home and recreational vehicle parks and subdivisions):

- (1) Proposals shall be consistent with the need to minimize flood damage;
- (2) Public utilities and facilities such as sewer, gas, electrical and water systems shall be located and constructed so as to minimize flood damage; and,
- (3) Adequate drainage shall be provided to reduce exposure to flood damage.

##### 5.1-2 ENCROACHMENTS

- (1) Within Zones A1-A30 and AE, on streams without a regulatory floodway, no new construction, substantial improvements or other development (including fill) shall be permitted unless:

(i) the applicant demonstrates that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any location, or,

(ii) the Town of Lumberland agrees to apply to the Federal Emergency Management Agency (FEMA) for a conditional FIRM revision, FEMA approval is received and the applicant provides all necessary data, analyses and mapping and reimburses the Town of Lumberland for all fees and other costs in relation to the application. The applicant must also provide all data, analyses and mapping and reimburse the Town of Lumberland for all costs related to the final map revision.

(2) On streams with a regulatory floodway, as shown on the Flood Boundary and Floodway Map or the Flood Insurance Rate Map adopted in Section 3.2, no new construction, substantial improvements or other development in the floodway (including fill) shall be permitted unless:

(i) a technical evaluation by a licensed professional engineer shows that such an encroachment shall not result in any increase in flood levels during occurrence of the base flood, or,

(ii) the Town of Lumberland agrees to apply to the Federal Emergency Management Agency (FEMA) for a conditional FIRM and floodway revision, FEMA approval is received and the applicant provides all necessary data, analyses and mapping and reimburses the Town of Lumberland for all fees and other costs in relation to the application. The applicant must also provide all data, analyses and mapping and reimburse the Town of Lumberland for all costs related to the final map revisions.

## 5.2 STANDARDS FOR ALL STRUCTURES

### 5.2-1 ANCHORING

(1) New structures and substantial improvement to structures in areas of special flood hazard shall be anchored to prevent flotation, collapse, or lateral movement during the base flood. This requirement is in addition to applicable State and local anchoring requirements for resisting wind forces.

### 5.2-2 CONSTRUCTION MATERIALS AND METHODS

(1) New construction and substantial improvements to structures shall be constructed with materials and utility equipment resistant to flood damage.

- (2) New construction and substantial improvements to structures shall be constructed using methods and practices that minimize flood damage.
- (3) For enclosed areas below the lowest floor of a structure within Zones A1-A30, AE or AH, and also Zone A if base flood elevation data are available, new and substantially improved structures shall have fully enclosed areas below the lowest floor that are useable solely for parking of vehicles, building access or storage in an area other than a basement and which are subject to flooding, designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of flood waters. Designs for meeting this requirement must either be certified by a licensed professional engineer or architect or meet or exceed the following minimum criteria:

- (i) a minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding; and

- (ii) the bottom of all such openings no higher than one foot above the lowest adjacent finished grade.

Openings may be equipped with louvers, valves, screens or other coverings or devices provided they permit the automatic entry and exit of floodwaters. Enclosed areas sub-grade on all sides are considered basements and are not permitted.

### 5.2-3 UTILITIES

- (1) Machinery and equipment servicing a building must either be elevated to or above the base flood level or designed to prevent water from entering or accumulating within the components during a flood. This includes heating, ventilating, and air conditioning equipment, hot water heaters, appliances, elevator lift machinery, and electrical junction and circuit breaker boxes. When located below the base flood elevation, a professional engineer's or architect's certification of the design is required;
- (2) New and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system;
- (3) New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters. Sanitary sewer and storm drainage systems for buildings that have openings below the base flood elevation shall be provided with automatic backflow valves or other automatic backflow devices that are installed in each discharge line passing through a building's exterior wall; and,

- (4) On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.

### 5.3 RESIDENTIAL STRUCTURES

#### 5.3-1 ELEVATION

The following standards, in addition to the standards in sub-sections 5.1-1, SUBDIVISION PROPOSALS, and 5.1-2, ENCROACHMENTS, and Section 5.2, STANDARDS FOR ALL STRUCTURES, apply to structures located in areas of special flood hazard as indicated.

- (1) Within Zones A1-A30, AE and AH and also Zone A if base flood elevation data are available, new construction and substantial improvements shall have the lowest floor (including basement) elevated to or above the base flood level.
- (2) Within Zone A, when no base flood elevation data are available, new and substantially improved structures shall have the lowest floor (including basement) elevated at least three feet above the highest adjacent grade.
- (3) Within Zone AO, new and substantially improved structures shall have the lowest floor (including basement) elevated above the highest adjacent grade at least as high as the depth number specified in feet on the community's Flood Insurance Rate Map enumerated in Section 3.2 (at least two feet if no depth number is specified).
- (4) Within Zones AH and AO, adequate drainage paths are required to guide flood waters around and away from proposed structures on slopes.

### 5.4 NON-RESIDENTIAL STRUCTURES

The following standards apply to new and substantially improved commercial, industrial and other non-residential structures, in addition to the requirements in sub-sections 5.1-1, SUBDIVISION PROPOSALS, and 5.1-2, ENCROACHMENTS, and Section 5.2, STANDARDS FOR ALL STRUCTURES.

- (1) Within Zones A1-A30, AE and AH, and also Zone A if base flood elevation data are available, new construction and substantial improvements of any non-residential structure, together with attendant utility and sanitary facilities, shall either:
  - (i) have the lowest floor, including basement or cellar, elevated to or above the base flood elevation; or
  - (ii) be floodproofed so that the structure is watertight below the base flood level with walls substantially impermeable to the passage of water. All structural components located below the base flood level must be capable of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy.

- (2) Within Zone AO, new construction and substantial improvements of non-residential structures shall:
  - (i) have the lowest floor (including basement) elevated above the highest adjacent grade at least as high as the depth number specified in feet on the community's FIRM (at least two feet if no depth number is specified), or
  - (ii) together with attendant utility and sanitary facilities, be completely floodproofed to that level to meet the floodproofing standard specified in sub-section 5.4(1)(ii).
- (3) If the structure is to be floodproofed, a licensed professional engineer or architect shall develop and/or review structural design, specifications, and plans for construction. A Floodproofing Certificate or other certification shall be provided to the Local Administrator that certifies the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions of Section 5.4(1)(ii), including the specific elevation (in relation to mean sea level) to which the structure is to be floodproofed.
- (4) Within Zones AH and AO, adequate drainage paths are required to guide flood waters around and away from proposed structures on slopes.
- (5) Within Zone A, when no base flood elevation data are available, the lowest floor (including basement) shall be elevated at least three feet above the highest adjacent grade.

#### 5.5 MANUFACTURED HOMES AND RECREATIONAL VEHICLES

The following standards in addition to the standards in Section 5.1, GENERAL STANDARDS, and Section 5.2, STANDARDS FOR ALL STRUCTURES apply, as indicated, in areas of special flood hazard to manufactured homes and to recreational vehicles which are located in areas of special flood hazard.

- (1) Recreational vehicles placed on sites within Zones A1-A30, AE and AH shall either:
  - (i) be on site fewer than 180 consecutive days,
  - (ii) be fully licensed and ready for highway use, or
  - (iii) meet the requirements for manufactured homes in paragraphs 5.5(2), (4) and (5).

A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.

- (2) A manufactured home that is placed or substantially improved in Zones A1-A30, AE and AH that is on a site either:

(i) outside of an existing manufactured home park or subdivision as herein defined;

(ii) in a new manufactured home park or subdivision as herein defined;

(iii) in an expansion to an existing manufactured home park or subdivision as herein defined; or

(iv) in an existing manufactured home park or subdivision as herein defined on which a manufactured home has incurred substantial damage as the result of a flood;

shall be elevated on a permanent foundation such that the lowest floor is elevated to or above the base flood elevation and is securely anchored to an adequately anchored foundation system to resist flotation, collapse and lateral movement. Elevation on piers consisting of dry stacked blocks is prohibited. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors.

(3) A manufactured home to be placed or substantially improved in Zone A1-A30, AE and AH in an existing manufactured home park or subdivision that is not to be placed on a site on which a manufactured home has incurred substantial damage shall be:

(i) elevated in a manner such as required in paragraph 5.5(2), or

(ii) elevated such that the manufactured home chassis is supported by reinforced piers or other foundation elements of at least equivalent strength that are no less than 36 inches in height above grade and are securely anchored to an adequately anchored foundation system to resist flotation, collapse or lateral movement. Elevation on piers consisting of dry stacked blocks is prohibited.

(4) Within Zone A, when no base flood elevation data are available, new and substantially improved manufactured homes shall be elevated such that the manufactured home chassis is supported by reinforced piers or other foundation elements of at least equivalent strength that are no less than 36 inches in height above grade and are securely anchored to an adequately anchored foundation system to resist flotation, collapse or lateral movement. Elevation on piers consisting of dry stacked blocks is prohibited.

(5) Within Zone A0, the floor shall be elevated above the highest adjacent grade at least as high as the depth number specified on the Flood Insurance Rate Map enumerated in Section 3.2 (at least two feet if no depth number is specified). Elevation on piers consisting of dry stacked blocks is prohibited.

SECTION 6.0  
VARIANCE PROCEDURE

6.1 APPEALS BOARD

- (1) The Zoning Board of Appeals as established by the Town of Lumberland shall hear and decide appeals and requests for variances from the requirements of this local law.
- (2) The Zoning Board of Appeals shall hear and decide appeals when it is alleged there is an error in any requirement, decision, or determination made by the Local Administrator in the enforcement or administration of this local law.
- (3) Those aggrieved by the decision of the Zoning Board of Appeals may appeal such decision to the Supreme Court pursuant to Article 78 of the Civil Practice Law and Rules.
- (4) In passing upon such applications, the Zoning Board of Appeals, shall consider all technical evaluations, all relevant factors, standards specified in other sections of this local law and:
  - (i) the danger that materials may be swept onto other lands to the injury of others;
  - (ii) the danger to life and property due to flooding or erosion damage;
  - (iii) the susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;
  - (iv) the importance of the services provided by the proposed facility to the community;
  - (v) the necessity to the facility of a waterfront location, where applicable;
  - (vi) the availability of alternative locations for the proposed use which are not subject to flooding or erosion damage;
  - (vii) the compatibility of the proposed use with existing and anticipated development;
  - (viii) the relationship of the proposed use to the comprehensive plan and floodplain management program of that area;
  - (ix) the safety of access to the property in times of flood for ordinary and emergency vehicles;
  - (x) the costs to local governments and the dangers associated with conducting search and rescue operations during periods of flooding;

(xi) the expected heights, velocity, duration, rate of rise and sediment transport of the flood waters and the effects of wave action, if applicable, expected at the site; and

(xii) the costs of providing governmental services during and after flood conditions, including search and rescue operations, maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems and streets and bridges.

- (5) Upon consideration of the factors of Section 6.1(4) and the purposes of this local law, the Zoning Board of Appeals may attach such conditions to the granting of variances as it deems necessary to further the purposes of this local law.
- (6) The Local Administrator shall maintain the records of all appeal actions including technical information and report any variances to the Federal Emergency Management Agency upon request.

## 6.2 CONDITIONS FOR VARIANCES

- (1) Generally, variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing items (i-xii) in Section 6.1(4) have been fully considered. As the lot size increases beyond the one-half acre, the technical justification required for issuing the variance increases.
- (2) Variances may be issued for the repair or rehabilitation of historic structures upon determination that:
- (i) the proposed repair or rehabilitation will not preclude the structure's continued designation as a "Historic structure".
  - (ii) the variance is the minimum necessary to preserve the historic character and design of the structure.
- (3) Variances may be issued by a community for new construction and substantial improvements and for other development necessary for the conduct of a functionally dependent use provided that:
- (i) the criteria of subparagraphs 1, 4, 5, and 6 of this Section are met;
  - (ii) the structure or other development is protected by methods that minimize flood damages during the base flood and create no additional threat to public safety.
- (4) Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.
- (5) Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

- (6) Variances shall only be issued upon receiving written justification of:
- (i) a showing of good and sufficient cause;
  - (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant; and
  - (iii) a determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local laws or ordinances.
- (7) Any applicant to whom a variance is granted for a building with the lowest floor below the base flood elevation shall be given written notice over the signature of a community official that the cost of flood insurance will be commensurate with the increased risk resulting from lowest floor elevation.

MODEL FLOODPLAIN DEVELOPMENT  
APPLICATION FORM

## FLOODPLAIN DEVELOPMENT PERMIT APPLICATION

This form is to be filled out in duplicate.

SECTION 1: GENERAL PROVISIONS (APPLICANT to read and sign):

1. No work may start until a permit is issued.
2. The permit may be revoked if any false statements are made herein.
3. If revoked, all work must cease until permit is re-issued.
4. Development shall not be used or occupied until a Certificate of Compliance is issued.
5. The permit will expire if no work is commenced within six months of issuance.
6. Applicant is hereby informed that other permits may be required to fulfill local, state and federal regulatory requirements.
7. Applicant hereby gives consent to the Local Administrator or his/her representative to make reasonable inspections required to verify compliance.
8. I, THE APPLICANT, CERTIFY THAT ALL STATEMENTS HEREIN AND IN ATTACHMENTS TO THIS APPLICATION ARE, TO THE BEST OF MY KNOWLEDGE, TRUE AND ACCURATE.
