#### SECTION 4. BUILDING PERMITS.

(a) Building Permits Required. No Person shall commence any work for which a Building Permit is required without first having obtained a Building Permit from the Code Enforcement Officer.

(b) Exemptions. No Building Permit shall be required for work in any of the following categories:

(1) construction or installation of up to two (2) one story detached structures associated with one- or two-family dwellings or multiple single-family dwellings (townhouses) which are used for tool and storage sheds, playhouses or similar uses, provided the gross floor area does not exceed 144 square feet (13.88 square meters);

change of any required means of egress, or the rearrangement of parts of a structure in a manner which affects egress; (iii) the enlargement, alteration, replacement or relocation of any building system; or (iv) the removal from service of all or part of a fire protection system for any period of time.

(c) Exemption not deemed authorization to perform non-compliant work. The exemption from the requirement to obtain a building permit for work in any category set forth in Subdivision (b) of this section shall not be deemed an authorization for work to be performed in violation of the Uniform Code or the Energy Code.

(d) Applications for Building Permits. Applications for a Building Permit shall be made in writing on a form provided by or otherwise acceptable to the Code Enforcement Officer. The application shall be signed by the owner of the property where the work is to be performed or an authorized agent of the owner. The application shall include such information as the Code Enforcement Officer deems sufficient to permit a determination by the Code Enforcement Officer that the intended work complies with all applicable requirements of the Uniform Code and the Energy Code. The application shall include or be accompanied by the following information and documentation:

(1) a description of the proposed work;

(2) the tax map number and the street address of the premises where the work is to be performed;

(3) the occupancy classification of any affected building or structure;

(4) where applicable, a statement of special inspections prepared in accordance with the provisions of the Uniform Code; and

Construction documents which are accepted as part of the application for a Building Permit shall be marked as accepted by the Code Enforcement Officer in writing or by stamp. One set of the accepted construction documents shall be retained by the Code Enforcement Officer, and one set of the accepted construction documents shall be returned to the applicant to be kept at the work site so as to be available for use by the Code Enforcement Personnel. However, the return of a set of accepted construction documents to the applicant shall not be construed as authorization to commence work, nor as an indication that a Building Permit will be issued. Work shall not be commenced until and unless a Building Permit is issued.

(f) Issuance of Building Permits. An application for a Building Permit shall be examined to ascertain whether the proposed work is in compliance with the applicable requirements of the Uniform Code and Energy Code. The Code Enforcement Officer shall issue a Building Permit if the proposed work is in compliance with the applicable requirements of the Uniform Code and Energy Code.

The Building Permit shall contain such a directive. The Permit Holder shall immediately notify the Code Enforcement Officer of any change occurring during the course of the work. The Building Permit shall contain such a directive. If the Code Enforcement Officer determines that such change warrants a new or amended Building Permit, such change shall not be made until and unless a new or amended Building Permit reflecting such change is issued.

(i) Time limits. Building Permits shall become invalid unless the authorized work is commenced within twelve (12) months following the date of issuance. Building Permits shall expire twenty-four (24) months after the date of issuance, with a maximum of two (2) six (6)-month extensions for good cause shown. A Building Permit which has become invalid or which has expired pursuant to this subdivision may be renewed upon application by the Permit Holder, payment of the applicable fee, and approval of the application by the Code Enforcement Officer.

(j) Revocation or suspension of Building Permits. If the Code Enforcement Officer determines that a Building Permit was issued in error because of incorrect, inaccurate or incomplete information, or that the work for which a Building Permit was issued violates the Uniform Code or the Energy Code, the Code Enforcement Officer shall revoke the Building Permit or suspend the Building Permit until such time as the Permit Holder demonstrates that (1) all work then completed is in compliance with all applicable provisions of the Uniform Code and the Energy Code and (2) all work then proposed to be performed shall be in compliance with all applicable provisions of the Uniform Code and the Energy Code.

(k) Fee. The fee specified in or determined in accordance with the provisions set forth in Section 16 (Fees) of this local law must be paid at the time of submission of an application for a Building Permit, for an amended Building Permit, or for renewal of a Building Permit.

#### SECTION 5. CONSTRUCTION INSPECTIONS.

(c) Inspection results. After inspection, the work or a portion thereof shall be noted as satisfactory as completed, or the Permit Holder shall be notified as to where the work fails to comply with the Uniform Code or Energy Code. Work not in compliance with any applicable provision of the Uniform Code or Energy Code shall remain exposed until such work shall have been brought into compliance with all applicable provisions of the Uniform Code and the Energy Code, re-inspected, and found satisfactory as completed.

(d) Independent testing. Whenever necessary or appropriate to assure compliance with the provisions of applicable laws, ordinances and regulations covering building construction, the Code Enforcement Officer may require the performance of tests in the field by experienced, professional persons or by accredited and authoritative testing laboratories or service bureaus or agencies. All fees must be reimbursed as outlined in Subdivision b of

Section 16.

(e) Fee. The fee specified in or determined in accordance with the provisions set forth in Section 16 (Fees) of this local law must be paid prior to the issuance of the building permit.

SECTION 6. STOP WORK ORDERS.

(a) Authority to issue. The Code Enforcement Officer is authorized to issue Stop Work Orders pursuant to this section. The Code Enforcement Officer shall issue a Stop Work Order to halt:

(1) any work that is determined by the Code Enforcement Officer to be contrary to any applicable provision of the Uniform Code or Energy Code, without regard to whether such work is or is not work for which a Building Permit is required, and without regard to whether a Building Permit has or has not been issued for such work, or

(2) any work that is being conducted in a dangerous or unsafe manner in the opinion of the Code Enforcement Officer, without regard to whether such work is or is not work for which a Building Permit is required, and without regard to whether a Building Permit has or has not been issued for such work, or

(c) Service of Stop Work Orders. The Code Enforcement Officer shall cause the Stop Work Order, or a copy thereof, to be served on the owner of the affected property (and, if the owner is not the Permit Holder, on the Permit Holder) personally or by registered mail / certified mail. The Code Enforcement Officer shall be permitted, but not required, to cause the Stop Work Order, or a copy thereof, to be served on any builder, architect, tenant, contractor, subcontractor, construction superintendent, or their agents, or any other Person taking part or assisting in work affected by the Stop Work Order, personally or by registered mail / certified mail; provided, however, that failure to serve any Person mentioned in this sentence shall not affect the efficacy of the Stop Work Order.

(d) Effect of Stop Work Order. Upon the issuance of a Stop Work Order, the owner of the affected property, the Permit Holder and any other Person performing, taking part in or assisting in the work shall immediately cease all work which is the subject of the Stop Work Order.

(e) Remedy not exclusive. The issuance of a Stop Work Order shall not be the exclusive remedy available to address any event described in Subdivision (a) of this section, and the authority to issue a Stop Work Order shall be in addition to, and not in substitution for or limitation of, the right and authority to pursue any other remedy or impose any other penalty under Section 15 (Violations) of this local law or under any other applicable local law or State law. Any such other remedy or penalty may be pursued at any time, whether prior to, at the time of, or after the issuance of a Stop Work Order.

SECTION 7. CERTIFICATES OF OCCUPANCY / CERTIFICATES OF COMPLIANCE

(a) Certificates of Occupancy / Certificates of Compliance required. A Certificate of Occupancy / Certificate of Compliance shall be required for any work which is the subject of a Building Permit and for all structures, buildings, or portions thereof, which are converted from one use or occupancy classification or subclassification to another. Permission to use or occupy a building or structure, or portion thereof, for which a Building Permit was previously issued shall be granted only by issuance of a Certificate of Occupancy / Certificate of Compliance.

(b) Issuance of Certificates of Occupancy / Certificates of Compliance. The Code Enforcement Officer shall issue a Certificate of Occupancy / Certificate of Compliance if the work which was the subject of the Building Permit was completed in accordance with all applicable provisions of the Uniform Code and Energy Code and, if applicable, that the structure, building or portion thereof that was converted from one use or occupancy classification or subclassification to another complies with all applicable provisions of the Uniform Code and

Energy Code. The Code Enforcement Officer or an Inspector authorized by the Code Enforcement Officer shall inspect the building, structure or work prior to the issuance of a Certificate of Occupancy / Certificate of Compliance. The Code Enforcement Officer shall be submitted to the Town Board to allow a Temporary Certificate allowing the temporary occupancy of a building or structure, or a portion thereof, prior to completion of the work which is the subject of a Building Permit. However, in no event shall the Town Board approve the issuance of a Temporary Certificate unless the Code Enforcement Officer determines (1) that the building or structure, or the portion thereof covered by the Temporary Certificate, may be occupied safely, (2) that any fire- and smoke-detecting or fire protection equipment which has been installed is operational, and (3) that all required means of egress from the building or structure have been provided. The Code Enforcement Officer may include in a Temporary Certificate such terms and conditions as he or she deems necessary or appropriate to ensure safety or to further the purposes and intent of the Uniform Code. A Temporary Certificate shall be effective for a period of time, not to exceed six (6) months, which shall be determined by the Code Enforcement Officer and specified in the Temporary Certificate. During the specified period of effectiveness of the Temporary Certificate, the Permit Holder shall undertake to bring the building or structure into full compliance with all applicable provisions of the Uniform Code and the Energy Code.

(e) Revocation or suspension of certificates.
